This is a level 1 Header

R Markdown

This is a level 3 Header

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

Here is a link to GOOGLE

Here is a word in **bold** and another word in **bold**.

Here is a word in *italics* and another word in *italics*.

when we compile our document, we are using the rmarkdown package

Here are some example R comands:

```
2+2 mean(c(1,2,3,4,5,6))
```

Here is an example of a non-numbered list:

- Breakfast
 - food
 - * eggs
 - * toast
 - * bacon
 - drink
 - * apple juice
- Lunch
 - taco
- Dinner
 - baked chicken
 - broccoli
 - rice

Here is an example of a numbered list:

- 1. Breakfast
 - a. food
 - i. eggs
 - ii. toast
 - iii. bacon
 - b. drink
 - i. apple juice
- 2. Lunch
 - a. taco
- 3. Dinner
 - a. baked chicken
 - b. broccoli

c. rice

Here is an example of blockquote:

This is a block quote. This paragraph has two lines.

- 1. This is a list inside a blocj quote.
- 2. Second items

Here is an example of nested blockquote:

This is a block quote. This paragraph has two lines

This text is nested

Here is an example of code in a blockquote:

```
2+2 mean(c(1,2,3,4,5))
```

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

summary(cars)

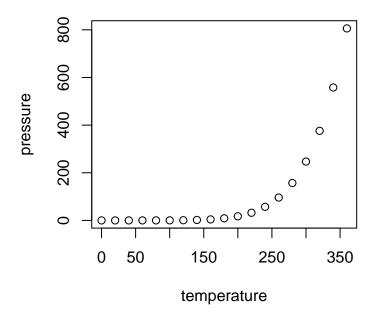

```
##
        speed
                         dist
                              2.00
           : 4.0
                   Min.
##
                           :
    1st Qu.:12.0
                    1st Qu.: 26.00
##
   Median:15.0
                   Median : 36.00
           :15.4
                           : 42.98
##
    Mean
                   Mean
                    3rd Qu.: 56.00
##
    3rd Qu.:19.0
           :25.0
                           :120.00
##
   Max.
                   Max.
```

Including Plots

You can also embed plots, for example:

Note that the $\mbox{echo} = \mbox{FALSE}$ parameter was added to the code chunk to prevent printing of the R code that generated the plot.

Insert tables

Table 1: Top 6 Rows of Cars Dtaset

dist	speed
2	4
10	4
4	7
22	7
16	8
10	9

Insert an equation

Modelo de Wood

$$y = at^b e^{-ct}$$

Insert Images

Figure 1: r logo_local

Ajuste modelo de Wood

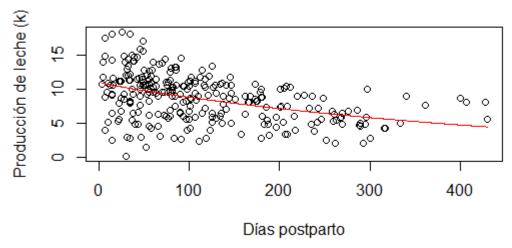

Figure 2: Ajustando producción de leche (kg) al modelo de Wood
